

*AG Personal*

January 17, 1924

Dear Gregg:

Mr. Flexner is just back from Baltimore and has been talking with me. It seems that the question of an associate or assistant dean at Hopkins has not been settled after all, and there is still some talk about you in this connection. Of course you understand that despite the arrangements you and I have agreed upon for the next two or three years you are quite free, if the Hopkins proposal is made to you, to consider it on its merits. In other words, if it seemed a desirable thing for you to do I should interpose no objection and you need not feel that you are bound in any way to our program. However, I think the matter is worthy of careful consideration before you make a final decision.

Sincerely,

RICHARD M. PEARCE

Dr. Alan Gregg,
